[TOC](#)

Client Details:

- Your company and contact information

Subject Details:

- The organisation you have selected will populate with limited information. If there are several known address details they will appear on the right hand side. To use this information click on the  icon. This will send the information into the associated fields on the order form.

Product Selection:

- Provide the credit limit to ensure the report will match your requirements.
- Indicate the purpose for the report – New account, review or Trade Insurance.
- Type of report – select the report using the drop down arrow.
- Disclosure of your details – Do you give us permission to advise the Subject who is requesting the information. Some organisations will refuse to provide us with information when we are unable to disclose where it is going.

Trade References:

- Record any known trade reference details in the allocated fields.
- We will make every effort to contact the listed referees. Some organisations do not provide references as a company policy. In this case ABR will make every effort to compile references through our own data base or from the subject directly.

Delivery Instructions:

- Indicate how you would like to receive the completed report – Email, Fax or Post.
- There is an additional cost if you require a report delivered as priority.
- Reference/Matter fields – This information will appear on your transaction listing.

Comments:

- Please supply us with any special instructions, known trading details, contact information, areas of interest etc.

Preview Onfile Reports

If we have conducted a report on your subject it will appear on the results screen as 'On File'.

Click 'Preview Onfile'

Corporate Reports

ABR Corporate Services has developed a unique set of products designed to assess all the risks involved in the procurement process for engaging a contractor or supplier.

Our reports set out to:

- Confirm the ownership and corporate structure with ASIC Searches
- Investigate any court actions and review payment patterns
- Ensure that the contract is with the correct entity and that funds are secured through appropriate guarantees
- Determine the long term financial viability and risk of failure
- Review existing contracts, impact on the cashflow and ability to handle the required workload
- Assess operational capacity to complete the contract
- Identify any issues that must be considered in drawing up the contract

Due to the nature of this style of investigative reporting, ABR understands the information provided by client and company is of a highly sensitive nature. For this reason, ABR maintains secure facilities that will ensure that any information obtained during the course of an investigation remains commercial in confidence.
