GLOSSARY	13

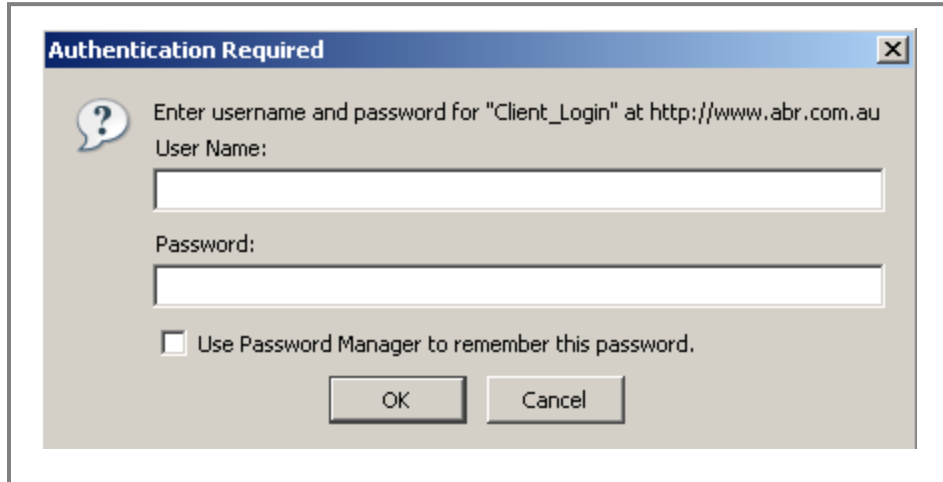

The ABR charges system allows you to search details relating to a registered charge with ASIC.

What is it used for?

- Research debtor’s liabilities
- Prospecting for new clients by reviewing competitor’s secured assets
- Establishing competitor activities by reviewing charges they have registered
- Establishing market share comparisons

Accessing ABR

Current Company Extract Search

A **current organisation search** consists of the following data:

- Corporate name and company number
- status and type (registered, de-registered, public company, etc)
- addresses (registered office & principal place of business)
- organisation officers (names, addresses, date and place of birth, positions held, date of appointment and cessation)
- shareholders
- capital and option details
- ultimate holding company
- registered company charges summary
- principal activities
- ASIC codes (where available)

Plus, where applicable:

- information specific to Foreign Companies
- information specific to Registrable Australian Corporations
- information specific to companies in External Administration

Plus

- documents received/processed by ASIC and available on DOCIMAGE

Historical Company Extract Search

An **historical organisation search** comprises the same data as the current organisation search, together with any non-current data held on the database.
